

Annex VIII-2

Report of the revised Terms of References for NOWPAP WG4

Terms of References for NOWPAP Working Group 4

1. Background

The Action Plan for the Protection, Management and Development of the Marine and Coastal Environment of the Northwest Pacific Region (NOWPAP) and three Resolutions were adopted at the First Intergovernmental Meeting (IGM) (Seoul, 14 September 1994, UNEP (OCA) / NOWPAP /IG.1/5). Resolution 1 identified five areas of priority for implementation of the Action Plan, one of which was NOWPAP/3 Establishment of a collaborative, regional monitoring programme.

Following the decision of the Third IGM (Vladivostok, 9 April 1988), the responsibility for NOWPAP/3 (Regional Monitoring Programme) was jointly shared by the Special Monitoring and Coastal Environmental Assessment Regional Activity Center (CEARAC) and the Pollution Monitoring Regional Activity Center (POMRAC) to carry out regional activities.

The Fourth IGM (Beijing, 6-7 April 1999) adopted the proposal for the second phase of the implementation of NOWPAP, in which the establishment of Coordinating Committee (CC) was expected as an outcome for the Activity NOWPAP/3. Resolution 1 of this meeting requested the NOWPAP Members to designate relevant representatives for participation in the “NOWPAP/3 Coordinating Committee and Working Groups”.

Following the decision of the First Meeting of the CC (Beijing, 21-22 May 2001), four Working Groups were established under NOWPAP/3.

Following the results of discussions at the First Meeting of the CC, the Seventh IGM (Vladivostok, 20-22 March 2002) approved the resolution 3 Para.6, “the demarcation of the responsibilities and activities between CEARAC and POMRAC as presented by the Secretariat in document UNEP/NOWPAP IG.7/8”. Subsequently CEARAC was allocated with the responsibility to implement activities related to NOWPAP Working Group 3 for Harmful Algal Bloom(s) (HAB) and NOWPAP Working Group 4 for Remote Sensing of Marine Environment.

The Seventh IGM also adopted the proposal as regards to the allocation of new responsibilities and activities to the Regional Activity Centres (RACs) with the necessity to move from a project-based implementation of activities to RAC-based activities. Following the approval of the Seventh IGM to establish the fora of the RAC’s Focal Points, the CC for Activity NOWPAP/3 evolved to become the CEARAC Focal Points Meeting.

In the First CEARAC Focal Point Meeting, the main issues needed to be focused on by the Working Group 4 were defined.

Hereinafter, Remote Sensing means space-based remote sensing technologies for ocean environmental monitoring.

2. Objectives

The main objectives of the Working Group 4 will be to promote, coordinate and harmonize regional cooperation in the Northwest Pacific region regarding monitoring of the marine and coastal environment by Remote Sensing.

3. Functions

The functions of the Working Group 4 will be:

- (a) To identify concrete cooperative actions in the NOWPAP Region regarding the application of Remote Sensing to monitoring of the marine and coastal environment
- (b) To carry out concrete cooperative actions in the NOWPAP Region for the purpose of exchanging information on the application of Remote Sensing to monitoring of the marine and coastal environment
- (c) To report the outcomes of the cooperative actions and propose further activities to CEARAC

4. Participation

- 4.1 NOWPAP Members will be invited to participate in the Working Group 4. Both the representatives of each NOWPAP Member and the experts for Working Group 4 should be of sound scientific and administrative knowledge and experience in Remote Sensing. The CEARAC Focal Points could be also experts for the Working Group 4.
- 4.2 Other relevant international and/or regional bodies and organizations concerned with Remote Sensing in the NOWPAP Region may be invited to participate in the meeting of the Working Group 4 as observers.

5. Sessions

Meetings of the Working Group 4 will be held as requested by the CEARAC Focal Point Meeting. The CEARAC Focal Point Meeting will discuss the needs and timing of the meeting, depending on recommendations by the Working Group 4.

6. Tasks

The Working Group 4 will carry out the following tasks;

- (1) To make and implement the workplan for cooperating actions
- (2) To prepare reports of its outcomes and report them to CEARAC

Specific tasks will be as follows;

- (a) To standardize a format of the national report of each NOWPAP Member and review the integrated report prepared by CEARAC
- (b) To develop a data and information network system to facilitate monitoring of the marine and coastal environment by Remote Sensing
- (c) To establish information dissemination strategies utilizing a website and booklets.
- (d) To organize regional activities such as workshops
- (e) To make an effort for the cooperation with other regional programmes in view of the marine and coastal environmental monitoring

7. Intersessional Work

In principle, all intersessional work will be carried out by correspondence among the participants.

8. Secretariat

The Working Group 4 will be served by a secretariat provided by the CEARAC.

9. Decisions

The Working Group 4 achieves decisions by consensus among the Working Group members. If consensus cannot be reached on administrative and procedural matters, voting may be taken. Each Working Group member will have one vote. Such decision will be taken by a majority of those Working Group members present and voting.

10. Procedure

The Working Group 4 shall adopt, *mutatis mutandis*, the rule of procedures of the UNEP Governing Council.

11. Agenda

The secretariat, in consultation with and under the guidance of the Chairperson, will prepare a provisional agenda for each session of the meeting. Any participant in the meeting may request the secretariat to add discussion items to the provisional agenda prior to determination of the final one.

12. Budget and Expenses

The initial budget for the Working Group 4 is supported by the NOWPAP Trust Fund. Other external funds shall also be sought in accordance with the development of the Working Group 4 activities.

13. Report

The Working Group 4 will consider and adopt a report at each of their session. The reports will be circulated to all participants in the meeting. The Director of CEARAC will present the reports to the CEARAC Focal Points Meeting.

14. Language

The working language of the Working Group 4 will be English. The host country may interpret English into the language of the host country for the purpose of disseminating the session discussion to a wider audience.
